

Allmetal Powder Coated Muntin Bars

Introducing Allmetal's Powder Coated Muntin Bars

Powder Coated Muntin Bars have a revolutionary new durable coating that protects them from scratching. Allmetal is proud to provide the dependability of powder coating technology to our customers.

Benefits Include:

- **Increased Durability**
Powder Coated Muntin Bars resist scratching and marring through the muntin fabricating process.
- **Material Variety**
Available in standard 12' 8" stock lengths for maximum optimization. Available in:
Green, Tan, White R, White 96, Porsche White, Bright White, Terratone-A, Sandstone-A, Bronze, Dark Brown, CNH Black, White 63, Light Bronze, Custom Grey
- **Less Waste**
Because of its durability the Powder Coated Muntin Bars will generate less scrap in your muntin operations.

For product samples or more information, please contact your Allmetal representative.
